

## Pre-Anesthetic Blood Testing

Consent Form

All animals entering the hospital MUST BE current on the following vaccines to prevent the spread of disease: Bordetella (dogs), Rabies (cats and dogs), Distemper/Parvo/Corona (dogs) combination, FVRCP(cats). If they are not current, they will be administered at the owner's expense.

Like you, our greatest concern is the well being of your pet. Before putting your pet under anesthesia, we will perform a full physical examination. However, many conditions, including disorders of the liver, kidneys, or blood, are not detected unless blood testing is performed. Such tests, for these conditions, are especially important before any kind of surgery.

For these reasons, we highly recommend blood screening before any anesthesia is administered.

The total cost of these important tests is: **\$49.50**

Our laboratory is fully equipped and staffed to perform these important blood tests. Results will be immediately available to examine **BEFORE** anesthesia and/or surgery.

Please indicate your choice below:

Pet's name \_\_\_\_\_

1. Yes, I want my pet to have a pre-anesthetic blood screen. INITIAL  
HERE \_\_\_\_\_
2. No, I do not want my pet to have a pre-anesthetic blood screen. INITIAL  
HERE \_\_\_\_\_

IS YOUR PET IN HEAT? Yes \_\_\_\_\_ or \_\_\_\_\_ No

**\*\*SURGERY BEING PERFORMED TODAY:** \_\_\_\_\_
